om Bethel

glishman and girl were with the Poten people when they were here.
ey had dinner together. Turner was the host at the dinner party.
rner was the host but the Poten people paid the bill.

I also was at this party, where Harrison invited me. I also was told it was Turner's, at the Royal Orleans, in a private dinning room. There was also a British camera crew there, with Mark Lane's new movie. They showed it ~~again~~ the next day in Jim's office, without inviting me (I barged in by accident) and refused to show him the Alyea film on their projector, which might have taken them five minutes.
